

CLIMATE CHANGE & ESG.

Before it became a crucial aspect of the business, we predicted that ESG would become popular. We systemically invested in the ESG practise as a long-term play from the viewpoints of corporate practise and social responsibility, and we have gradually created a full-bench of 10 lawyers who specialise in various parts of ESG.

We support clients in achieving business goals and overcoming obstacles caused by the shifting environment. The Team is knowledgeable about legal requirements and norms and uses sustainable practises to assist reduce climate hazards. The Team has provided corporate social responsibility and human rights advice to global corporations and business conglomerates

The Firm offers support to customers in the areas of ESG disclosures, integrated reporting and audits, sustainable financing and investment prospects, ethical business practises, pro-bono strategies, and due diligence. The Team also gives clients advice on initiatives involving innovation, technology, and infrastructure that supports the energy transformation.

Being a socially conscious company, among many other ESG initiatives, we played a significant role in the Sehej Foundation, which recently received the Earth award, the highest environmental honour bestowed by the UN, in recognition of outstanding leaders from the public and private sectors who have had a transformative effect on the environment. Additionally, the company has set a deadline for become carbon neutral.

The Firm received the "Best Legal Consulting Firm of the Year" title at the India National Solar Awards 2022, which is a testament to its standing and competence. According to Mercom Communications India, The Firm was identified as an expert advisor for "India's Top Five Announced Solar Project Funding Deals of 2021" and was ranked as the top law firm in India in the Bloomberg NEF 1Q Clean Energy League Tables.
