

INTELLECTUAL PROPERTY

Among Indian general practise law firms, the Intellectual Property Law Practise has a strong reputation. A global strategy is used by the IP practise, which is fully integrated into the firm's interdisciplinary full-service practise.

The IP team at Leglux & Co. and Leglux & Co. Law Offices in India is made up of experts with years of experience and a solid foundation in the prosecution of patents, trademarks, copies rights, and designs, as well as business transactions (advice, structuring, licensing, franchising, joint ventures, mergers & acquisitions, IP audits / due diligence, etc.) and litigation (including advisory, infringement disputes, enforcement, and anti-piracy). Members of the team frequently counsel clients on India's pharmaceutical regulatory legislation as well.

Small company concerns (including start-ups and personally owned corporations) and large local and foreign corporations are some of the firm's clientele. The firm specialises in offering reasonable, affordable, and practical solutions to problems concerning client products and IP portfolios, whether on their own or in connection with IP-based business-transactional advise in other practise areas of law.

The firm's solicitors have years of experience managing and auditing substantial IP portfolios of multinational corporations in the pharmaceutical, FMCG, banking, apparel, hospitality, media and entertainment sector (TV, film, music & OTT distribution), as well as the fashion and retail industries.
